Dear Mr. Corey:

On August 16, 2017, the California Air Resources Board submitted revisions to the California State Implementation Plan. We have reviewed the materials submitted with the following documents and found that they fulfill the completeness criteria in 40 CFR Part 51, Appendix V.

AQMD	Rule #	Title
Yolo-Solano	3.25	Federal New Source Review for New and Modified Major PM _{2.5} Sources

This submittal addresses the finding of failure to submit for the 2006 fine particulate matter (PM_{2.5}) National Ambient Air Quality Standards for the Yolo-Solano Air Quality Management District made by the U.S. Environmental Protection Agency (EPA) on June 8, 2016 (81 FR 36803). The finding of completeness conveyed in this letter represents EPA's determination that the deficiency that formed the basis for the finding of failure to submit has been corrected, and as a result, the related application of the offset sanction and the running of the highway sanction clock is permanently stopped. See 40 CFR 52.31(d)(5).

If you have any questions regarding our completeness review, please call me or have your staff call Arnold Lazarus at (415) 972-3024.

Sincerely,

Elizabeth J. Adams
